

Ashitosh Shashikant Bendre *Game Developer/Programmer*

ashitoshbendre.work@gmail.com • 8208542466 • Pune, Maharashtra

PROFILE

 **Game Developer with expertise in Unity, C#, and multiplayer game development.** Passionate about crafting immersive gameplay experiences, optimizing performance, and implementing innovative game mechanics. Experienced in developing **multiplayer games, AR applications, backend systems, and game UI/UX**. Always eager to learn and apply industry best practices in game design and development.

PROJECTS

Pocket Rocket

A WebGL-based browser game and website project in its initial stages. The project aims to demonstrate the emerging potential of WebGL games following the discontinuation of Flash games.

Highlights: WebGL, Rigid body Physics, Observer pattern

Upcoming: 2D Soft body Physics, PCG

PROFESSIONAL EXPERIENCE

PlatypusBox

03/2024 – present

Unity Game Developer

- **Game Development & Multiplayer:** Built and optimized **gameplay mechanics** in Unity, using **NavMesh Agents** for AI and **Photon PUN 2** for multiplayer networking in a **2D board game**.
- **2D Quiz Game:** Designed a **dynamic quiz system** using **ScriptableObjects**, improving game scalability and reusability.
- **E-commerce App (Unity & Backend):** Developed **backend API integrations**, managed **database architecture**, and implemented a **responsive UI system** for **seamless user interactions on Android**.
- **Telly ERP System:** Enhanced **multi-user login**, **ACID-compliant Firebase transactions**, **tab-based navigation**, and **custom keyboard accessibility**, improving workflow efficiency.
- **AR Interior Design App:** Developed an **AR-powered interior visualization tool** using **AR Foundation & Vuforia**, implementing **JSON-based object saving** and **prototyping for Xreal AR Glasses & Meta Quest 3**.

CERTIFICATES

Complete C# Unity Game Developer 3D: [Certificate Link](#) [↗](#)

Ultimate Unity Overview (70+ Tools and Features Explained!): [Certificate Link](#) [↗](#)

EDUCATION

BSC in Computer Science

Sarhad College of Arts, Commerce & Science
2023

SKILLS

Game Development — Unity, PlayCanvas, C#, Game Design Patterns, Multiplayer Networking (Photon PUN 2 & Mirror), AR Development (AR Foundation, Vuforia)

Programming Languages — C#, Java, Kotlin, HTML, CSS, JavaScript

Backend & Tools — Firebase, MongoDB

Game/Design Tools — Unity, PlayCanvas, Figma, WebFlow, Photoshop, Inkscape

Productivity Tools — VS Code, IntelliJ IDEA, Affine, Obsidian, Milanote, GitKraken
